

James Hillier Foundation

Nurturing tomorrow's discoveries today

34 Spalding Drive, Brantford, Ontario, N3T 5W5

Dear Hillier Scholarship Recipients;

Since 1997, the James Hillier Foundation has bestowed scholarships for university to Brantford and Brant County high school students wishing to pursue a career in scientific research. This year marks the 26th year for the program and including this year's recipients, 78 local students have been awarded university scholarships. At the conclusion of this year, the Foundation will have awarded over \$1,342,000 in scholarships.

2022 Scholarship Recipients

This year the Foundation was pleased to offer four scholarships. High school students Lucas Balog from Paris District High School, Hemant Bhagria and Tahiyah Syeda from Assumption College and Gurnirmal Kaur from North Park Collegiate are the recipients of full four-year \$20,000 scholarships from the James Hillier Foundation.

Foundation News

2022 – Celebrating 25 years of granting scholarships.

Last year, the James Hillier Foundation celebrated its 26th year of providing grants to Brantford and Brant County students wishing to pursue a career in scientific research. As of this year, the Foundation has assisted 79 students embarking on their university careers.

To commemorate this milestone, the James Hillier Foundation partnered with the Canadian Centre for Electron Microscopy (CCEM) located at McMaster University. It was hoped to send up to 120 students from Brantford / Brant area high schools to the Centre for a tour, informational seminars and up-close look at today's technology. Unfortunately, Covid interfered with these plans and the trips had to be delayed.

For more information on the CCEM follow the link: www.ccem/mcmaster.ca

Keeping In-Touch
